Designing the Learning Objective for Training Materials by following the ABCD Model.

Performance element	Description	Input
<u>A</u>udience	- Who are the Learners? - What is their prior knowledge?	
<u>B</u>ehavior	- What desired Behavior do we need to see as the ending result of the Learning Process?	
<u>C</u>ondition	- What are the conditions under which the Objectives must be completed?	
<u>D</u>egree	- What is the degree or standard that the Learner must meet to reach acceptable performance?	
Final Learning Objective
